

<b>Sinusoid test</b>	
<b>Inv.-No.</b>	00702
<b>Developer</b>	Raymond Bonnardel (1901-1988)
<b>Manufacturer</b>	EAP; 92130 Issy Les Moulineaux; France
<b>Date</b>	1950
<b>Material</b>	Acryl, brass nickel plated
<b>Dimensions (h, w, d; in mm)</b>	40, 210, 100

This test was designed e.g. for the selection of apprentice mechanics. The task is to move the two metal pins through the curved path from one end to the other by turning the disc with both hands without touching the outer metal plate. The number of errors, the duration of the errors and the total time are measured.

Literature: Bonnardel. R. (1950) Une nouvelle épreuve de précision des mouvements des mains. Le test sinusoïde. *Le Travail Humain*, 13 (3/4), 270-273.
