

## Immunomodulation WS 20 (9.1.2020- 13.2.2020)

organized by the Integrated Research Training Group (IRTG) of the TRR 211 GvHD / GvL

“Leukemia and Lymphoma”

Location and time, if not otherwise announced: Institute for Virology and Immunobiology,  
Seminar room, Thursdays 8:15 – 9:30

Date	lecturer	expertise	topic
January 9	-	?	Self-study on B-cell development and differentiation
January 16	PD Dr. Friederike Berberich-Siebelt, Institute for Pathology	Molecular and cellular immunology	Students' activity on B-cell development and differentiation (be prepared)
January 23	Prof. Dr. Andreas Rosenwald, head of the Institute of Pathology at the University of Wurzburg	Hematopathology <a href="http://www.pathologie.uni-wuerzburg.de/institut/">http://www.pathologie.uni-wuerzburg.de/institut/</a>	“Lymphoma”
January 29, 5:15 pm, Institute of Pathology, lecture hall	Prof. Dr. Thomas Oellerich, DKTK Professorship for Translational Proteome Research in Cancer at the University Hospital Frankfurt	<a href="http://www.uniklinik-onkologie.de/fuer-scientists/research-groups/oellerich-lab/">http://www.uniklinik-onkologie.de/fuer-scientists/research-groups/oellerich-lab/</a>	“Proteogenomic elucidation of oncogenic signaling in lymphomas”
January 30	Prof. Dr. Thomas Oellerich	Translational Proteome Research in Cancer	"Scientific motivation and life-time achievements"
February 6	Prof. Dr. Ingolf Berberich, Institute for Virology and Immunobiology	B cells, molecular biology	“More news on germinal center responses”
February 13 Internal Medicine II	Prof. Dr. Hermann Einsele, director of the Department of Internal Medicine II, Wurzburg	Hematology (Multiple Myeloma Research) <a href="https://www.uni-wuerzburg.de/en/universitaet/university-board/hermann-einsele/">https://www.uni-wuerzburg.de/en/universitaet/university-board/hermann-einsele/</a>	“Multiple Myeloma” + patient presentation
