

Applicants and Students: BundID/EUID – Linking it to your WueStudy account and logging in through it

The BundID is your central user account for accessing government services. Applicants and students can log in to WueStudy through their BundID.

If you want to do so, create a BundID account or use your EUID.

Link your BundID to your WueStudy account.

Once you have done so, you will be able to log in to WueStudy through your BundID or EUID.

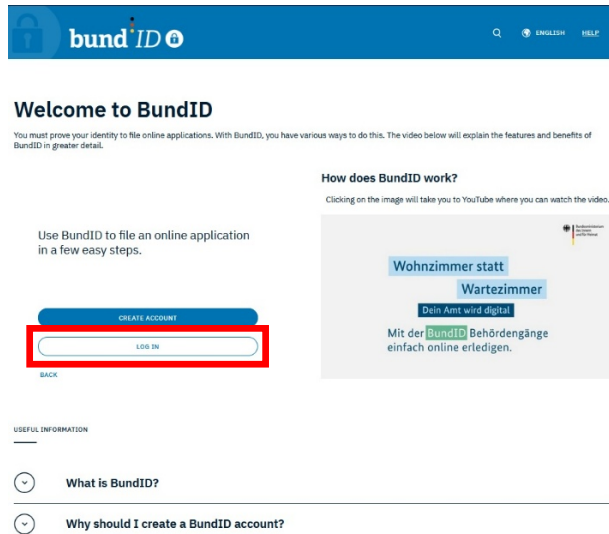

Log in to WueStudy

- as an applicant: with your user name and password
- as a student: through WueLogin with your university email address and password and then select 'BundID' on the WueStudy portal page.

Login

The screenshot shows the login interface for WueStudy. At the top, there is a section titled "Login for applicants and former students" with input fields for "Username" and "Password" (with a toggle for visibility). Below this is a blue "Login" button. Underneath is a section titled "WueLogin" for "students and employees" with a "UNI WÜ" logo and the text "Login using WueLogin". At the bottom, a section titled "BundID" for "applicants and students" is highlighted with a red box, featuring a "bund ID" logo and the text "Login using BundID". A "Forgot login data?" link is located at the very bottom.

Log in to BundID with your BundID log in details.

Then click the 'WEITER' button to be taken back to WueStudy.

Once you have done so, your WueStudy and BundID accounts will be linked to each other and you will be able to log in to WueStudy through your BundID.

If you are having any problems logging in through your BundID, e.g. if you lost your BundID log in details, please contact the BundID support.
