Course Lists From Previous Semesters

The finalized course lists will be distributed at the start of the course registration period. Please note that even if a course is listed as having been offered in the past, it may not be offered during future semesters. For some of the courses offered in each track, only a limited number of students can enroll. If the number of applicants for such a course exceeds the maximum number that can enroll, registration will be decided by lottery. Please note that there is a possibility that you may not be able to take your desired courses.

- SKP students can select courses only from the course lists for each track/campus distributed to them at the start of the course registration period. Students will not be able to choose from among all of the courses for regular students.
- Following the restructuring and consequent review of the reorganized program, undergraduate students will be able to select courses only among those listed in the SKP course list designated for undergraduate students. Graduate students will be able to register for courses from both SKP course list for undergraduate students and that for graduate students.
- International students are required by Japanese law to attend a minimum of 10 hours of classes per week. Since one session lasts for an hour and a half at Ritsumeikan University, you must take at least 7 class sessions of classes per week. You can register up to a maximum of 20 credits each semester (including Japanese classes).
