EVENTS

Info Event: Horizon Europe ERA "Reforming and Enhancing the European Research & Innovation System"

The German National Contact Point (NCP) for Horizon Europe will inform researchers about the funding programme part "Reforming and Enhancing the European Research & Innovation System". Calls under this programme are mostly for coordination, networking and support activities within the topic areas of Open Science, Responsible Research & Innovation, Gender Responsive Innovation, Science Communication and Science Education.

Date: **25 November 2021, 10:00-12:00**

Horizon Europe Info Days: "Culture, Creativity & Inclusive Society" / "Industry, Digital & Space"

The Horizon Europe info-days provide an opportunity for prospective applicants to get information and ask questions about the main funding instruments and call topics for collaborative international research projects.

Info Day for Cluster 4 "Industry, Digital & Space": **29.11.-01.12.2021**

Info Day for Cluster 2 "Culture, Creativity & Inclusive Society": **07.12.2021**

BMBF: National Info Day on Missions in Horizon Europe

The German Federal Ministry of Education and Research (BMBF) will inform about the new mission-oriented research funding approach under Horizon Europe. Planned missions include "Conquering Cancer: Mission Possible", "A Climate Resilient Europe", "Mission Starfish 2030 - Restore our Ocean and Waters", "100 Climate-Neutral Cities by 2030 - by and for citizens", "Caring for Soil is Caring for Life".

Date: **8 December 2021, 10:00-13:00**

FUNDING CALLS

Joint Czech-Bavarian Research Projects 2022-2024

The Bavarian State Ministry of Education, Science and the Arts and the Ministry of Education, Youth, and Sports of the Czech Republic are inviting proposals for bilateral joint research projects between Bavarian and Czech research institutions. The programme's aim is to facilitate scientific collaboration and internationalisation as well as to encourage researchers to jointly apply for further project funding at national or EU level (e.g. Horizon Europe, Interreg, DFG-GA ČR, etc.). The programme is open to these research areas: materials science and nano technologies; engineering - electrical engineering, IT, AI, Industry 4.0, 5G technologies; medicine and health sciences; social sciences and humanities.

Funding: up to € 90,000 for 3 years.

Deadline: **31 January 2022**

Horizon Europe: Increasing the Reproducibility of Scientific Results

Under the Horizon programme part "Reforming and enhancing the European Research System" this call offers funding for collaborative projects to investigate how increased reproducibility of scientific results generates gains and savings in the research and innovation process and to find, experiment and mainstream concrete solutions and best practices to increase reproducibility. Consortia must consist of at least 3 different partners from at least 3 different EU member states or associated countries.

Funding: **up to € 2 million.**

Further calls under the programme part "Reforming and enhancing the European Research System" can be found in the [EU Funding & Tenders Portal](#).

EU BEST PRACTICE

TD-Net Toolbox for Transdisciplinary Projects

The Swiss Academies of Arts and Sciences provide this online resource with methods and tools to help you develop and conduct transdisciplinary research projects in heterogenous groups. The tools range from Actor Constellation, Design Thinking, Functional-Dynamic Stakeholder Involvement and Nomadic Concepts to Give & Take Matrix and Venn Diagram.
