Home country USA

Academic and professional career
Field of study Plant Biology (photosynthesis, photoprotection, and leaf architecture)
Current position University Professor
Home university University of Colorado in Boulder, Colorado, USA
Languages English and some German

Interests
Hobbies Traveling, family, life in general
About me Married to Professor Dr. Barbara Demmig-Adams (PhD and Dr. rer. nat., habil. In 1987 from Universität Würzburg). I teach biology and conduct research on photosynthesis, photoprotection, the role of leaf vasculature (and especially the phloem) in influencing photosynthesis, and biofuels from algae. I am an editor for the Journal Plant Biology (published under the auspices of the German Botanical Society). As a recipient of a fellowship from the Alexander von Humboldt foundation (1988-1989), I am eligible to sponsor qualified Germans as postdoctoral fellows in my lab supported by a Feodor Lynen Fellowship from the Alexander von Humboldt Stiftung.

Time in Wuerzburg
I have been at the University of Wuerzburg because of a NATO Postdoctoral Fellowship followed by an Alexander von Humboldt Fellowship. My advising professors were Klaus Winter and Otto Lange.

My most memorable experience during my stay .. marrying Barbara Demmig-Adams.

Wuerzburg is... the German city that I would most like to live in.
Dr. Bavita Asthir  
Biochemistry

Date of Birth 17/03/1963  
Address 65 Gobind Nagar, Vishal Chowk  
             Pakhowal Road, Ludhiana 141013, India  
Telephone +91 9216 292388  
E-Mail b.asthir@rediffmail.com  
Home country India

Academic and professional career
Field of study Plant Biochemistry Biotic and Abiotic stresses in plants  
Current position Senior Biochemist cum Head, 22 years experience in Teaching and Research in the field of Biochemistry  
Home university Punjab Agricultural University, Ludhiana, Punjab, India  
Languages English, Hindi and Punjabi

Interests
Hobbies Meditation  
About me I am a highly trained teacher, capable of handling projects and other teaching assignments independently.

Time in Wuerzburg
I have been at the University of Wuerzburg because of an exchange Programme. My advising professor was Prof. Thomas Roitsch.

My most memorable experience during my stay . to learn techniques of molecular biochemistry under the guidance of Prof. Thomas Roitsch.

Wuerzburg is... a nice place to visit.
Dr. Noelia Costa-Riu

Biotechnology

Date of Birth  23/01/1973
Address  Verge,5 25537 Mont, Spain
Telephone  +34 6093 24548

Hobbies Movies, tourism  
About me Unfortunately, next year I’ll retire.

Time in Wuerzburg
Wuerzburg is... In my opinion, it is very beautiful!
Associate Prof. Sunit Kumar Singh

Neurovirology

Date of Birth 19/07/1971
Address Dr. Sunit K. Singh, PhD
Associate Professor & Head
Molecular Biology Unit
Faculty of Medicine,
Institute of Medical Sciences
Banaras Hindu University (BHU)
Varanasi-221005, India
Telephone +91 9849570519
E-Mail sunitsingh2000@gmail.com
Home country India

Academic and professional career

Field of study Infectious Diseases (Neurovirology)
Current position I am working as an Associate Professor of the Molecular Immunology at the
Molecular Biology Unit, Institute of Medical Sciences, Banaras Hindu University
(BHU), Varanasi, India. BHU is one of the largest residential universities in Asia. BHU
is organized into 4 institutes and 14 faculties (streams) and more than 140
departments. Currently, I am leading a research group in the Area of Molecular
Virology at the Institute of Medical Sciences, BHU, Varanasi.
Home university Bachelors degree with the honor of Vice Chancellor’s Gold Medal from GB Pant
University of Agriculture and Technology, Pantnagar, India
Masters from CIFE, Mumbai, India
Further education Obtained PhD from University of Wuerzburg, Germany
Completed the work on Lyme disease caused by vector borne pathogen Borrelia
burgdorferi during stay at the University of Wuerzburg, Wuerzburg, Germany.
Received advanced trainings at Yale University School of Medicine, New Haven,
(USA) and University of California, Davis (USA) as postdoctoral research scholar
Has been awarded many prestigious awards like Scientilla 96 and Young Scientist
Award from India, Skinner Memorial Award and Travel grant awards from American
Fisheries Society, Bethesda (USA) Top Cited Paper Award – FEBS Journal and Best
Poster award from German Society of Pediatric Infections, Germany.
Currently member of various professional societies like Inflammation Research
Association, USA, Society for Neuroscience, USA and member of New York
Academy of Sciences, USA. Currently serving as Associate Editor of the
international peer reviewed journal “PLoS Neglected Tropical Diseases.”
Previously worked as a Scientist and led a research group in the area of Infectious
Diseases at Center for Cellular and Molecular Biology, Hyderabad
Area of research interest includes host pathogen interaction in HIV and vectororne flaviviral infections
Currently working as an Associate Professor of the Molecular Immunology in the Molecular Biology Unit at the Institute of Medical Sciences, BHU, Varanasi.

**Time in Wuerzburg**

I have been at the University of Wuerzburg because of an IZKF Sponsored Project. My advising professors were Prof. Hermann J. Girschick and Prof. Jörg Hacker.

Wuerzburg is... a beautiful city, having a multicultural society. This is the city of philosophers and scientists.
Prof. Waldemar Adam
Chemistry

Date of Birth 26/07/1937
Address Guajataca Street 221
             Villas de la Playa, Vega Baja
             Puerto Rico 00693, USA
Mobile +1 787 9349534
E-Mail wadam@chemie.uni-wuerzburg.de
Home country USA

Academic and professional career

Field of study Organic Chemistry
Current position Professor Emeritus, University of Puerto Rico, Rio Piedras Campus (2006 – now)
Home university PhD in MIT
Further education Professor of Chemistry, University of Puerto Rico (UPR), Rio Piedras Campus (1961 – 1980);
             Professor of Organic Chemistry, University of Würzburg (1980 – 2002)
Languages English, German, Spanish

Interests

Hobbies Writing, jogging, beach, play domino
About me As a retiree I keep my brain and body busy to the fullest: I start my day at about 6 am, jog for half an hour, bicycle ride to the beach, take a swim, shower, ride back home to have breakfast, work in the garden, write and read during the day, at night I play domino - if you wish 'Adam in Paradise'! Once a week I go to UPR to attend graduate seminars in chemistry.

Time in Wuerzburg

In May 1980 I was appointed to the Chair of Organic Chemistry and Co-Director of the Institute of Organic Chemistry, Faculty of Chemistry and Pharmacy.

My most memorable experience during my stay... on that I could write a book!

Wuerzburg is... one of the most beautiful cities in Germany, for me it was the optimal combination of an excellent university and wonderful surroundings - I loved it!
Dr. Joel Lilitan Bargul  
Biochemistry

Date of Birth  12/12/1981  
Address  P.o. Box 62,000-00200  
Nairobi, Kenya  
Telephone  +25 4 726862228  
E-Mail  jlbargul@gmail.com  
Home country  Kenya

Academic and professional career
Field of study  Biochemistry and Molecular Biology  
Current position  I’m working as lecturer at Jkuat  
Home university  Jomokenyatia University of Agriculture and Technology (Jkuat)  
Languages  English, Swahili

Interests
Hobbies  Jogging  
About me  I am interested in research on neglected tropical diseases, focus on finding better ways of diagnosis, control and treatment.

Time in Wuerzburg
I have been at the University of Wuerzburg because of a scientific exchange between universities. My advising professor was Professor Doctor Markus Engstler.

Wuerzburg is... a nice city.
Dr. Lin Jianhua
Chemistry

Date of Birth 01/08/1963
Address No. 1 Science Park Drive
Singapore 118221, Singapore
Telephone +65 688 51313
+65 967 55831
E-Mail Jianhua.lin@tuv-sud-psb.sg
Home country Singapore

Academic and professional career
Field of study Chemistry
Current position Vice President, Chemical Centre, TÜV SÜD PSB Pte Ltd
Home university Jilin University & Nanjing University
Languages English & Chinese

Interests
Hobbies Reading, jogging, excercise
About me Optimistic, positive-thinking

Time in Wuerzburg
I have been at the University of Wuerzburg because of an Alexander von Humboldt Fellowship. My advising professor was Professor Waldemar Adam (page 20).

Wuerzburg is... a quiet and beautiful place.
Prof. Virima Mudogo
Chemistry

Date of Birth 31/03/1956
Address University of Kinshasa (UNIKIN),
B.P 202
KINSHASA XI,
Dem. Rep. of the Congo
Telephone +24 3 999930963
E-Mail mudogov@yahoo.fr
Home country Dem. Rep. of the Congo

Academic and professional career
Field of study Chemistry
Area of research Analytical natural products chemistry, isolation of bioactive compounds from
tropical medicinal plants, structure elucidation and development of new drugs.
Current position I have been a full professor at the Faculty of Sciences, University of Kinshasa
(UNIKIN), since September 1988, and was its Vice-President from 2005 to 2009.
Home university University of Kinshasa (UNIKIN)
Further education I studied chemistry at the Universities of Kinshasa and Würzburg (Dr. rer. nat. in
1988, DAAD-Fellowship). I am involved in several research projects (i.a. TWAS-
Research Unit Leader at the UNIKIN and collaboration with the SFB 630/University
of Würzburg). My research work is mainly centered on the anti-sickling activities of
anthocyanins and the search for new anti-infective compounds from Congolese
plants. I am Vice-Chairman of the NGO “Förderverein Uni Kinshasa e.V.” and
Secretary of NAPRECA D.R.C. (Natural Products Research Network for Eastern and
Central Africa)
Languages French, German, English

Interests
Hobbies Music
About me I’m proud, very proud to be a professor. I really enjoy contributing to the education
and training of young people very much.

Time in Wuerzburg
I have been at the University of Wuerzburg because of a DAAD scholarship from 1983-1988; a three months
DAAD research scholarship in 1991 and a three months DAAD research scholarship in 2001. My advising
professors were: PhD with Prof. Dr. Friedemann Schneider, Institute of Physical Chemistry/University of
Würzburg.
I had a scientific collaboration with Prof. Dr. Dr. h.c. mult. Gerhard Bringmann since 1993: Initially, this collaboration only focused on the search for bioactive compounds from tropical plants. From this, many joint publication resulted, even a first German-Congolese patent.

Today, these joint investigations are imbedded in the research network SFB 630 („Agents against Infectious Diseases“), of which Mr. Bringmann is the coordinator. Mr. Bringmann and me initiated in 2008 a privately financed excellence scholarship program, BEBUC. It shall give outstanding young people in the Congo the chance to study rapidly and in depth and to pursue an academic career.

My most memorable experience during my stay... it enabled me to learn German, to gain an in-depth understanding of the values of German culture, and to intensify my relations with German colleagues and friends. I continue to maintain and to nurture these friendships both privately and professionally.

Würzburg is... a beautiful town with a long and distinguished tradition of research and education.
# Prof. Vaidya Jayathirtha Rao

Time in Wuerzburg

I have been at the University of Wuerzburg because of an Alexander von Humboldt Fellowship. My advising professor was Prof. Dr. Waldemar Adam.
**Prof. Dušan Stipanović**  
**Control Systems**

Date of Birth: 23/08/1971  
Address: Department of Industrial and Enterprise Systems Engineering and Coordinated Science Laboratory  
University of Illinois at Urbana Champaign  
Urbana, IL 61801, USA  
Telephone: +1 217 2440907  
E-Mail: dusan@illinois.edu  
Home country: USA

**Academic and professional career**

Field of study: Control Systems, Differential Games, Robotics  
Current position: Professorship at the University of Illinois Urbana-Champaign since 2004, with an exception of the academic year 2010-2011, which I spent as a visiting professor at the University of California at Berkeley.  
Further education: I spent three summers 2008-2010 as an Alexander von Humboldt research fellow at the University of Wuerzburg.  
I first finished mathematical Gymnasium in Belgrade, then received a five-year undergraduate degree in electrical engineering from the University of Belgrade and then moved to US to get graduate degrees (MS and PhD) at Santa Clara University and did postdoctoral studies at Stanford University.

Home university: University of Illinois at Urbana-Champaign  
Languages: English and Serbo-Croatian

**Interests**

Hobbies: Running, former competitive table tennis player  
About me: Born in former Yugoslavia, Belgrade (now Serbia); raised and lived between Belgrade (now Serbia) and Mali Lošinj (now Croatia)

**Time in Wuerzburg**

I have been at the University of Wuerzburg because of an Alexander von Humboldt Fellowship. My advising professor was Professor Klaus Schilling, Department of Robotics and Telematics Chair.  
My most memorable experience during my stay .. wonderful and kind people of Wuerzburg and at the University. My warmest memories are of Schilling’s family: Klaus, Sabine, Franz, Karl and Klara.  
Wuerzburg is .. a wonderful place where I spent three splendid summers.

Akademische Ausbildung und beruflicher Werdegang

Studienfach Bauwesen
Aktuelle Position Ab ersten Januar 2013 begann die dritte und schönste Periode meines Lebens: ich ging in den Ruhestand
Weiterbildung Angewandte Mechanik bis 1990, danach Robotertechnik Professor Leiter der Labor für Intelligente Systeme am Institut für Grundlagenforschung der Polnischen Akademie der Wissenschaften in Warschau.

Heimatuniversität TU Kaunas, Lithuania
Sprachkenntnisse Polnisch, Litauisch, Russisch, Deutsch, Englisch, Französisch

Persönliches

Hobbies Kajak in Sommer, Ski im Winter
Über meine Person Ich lache gerne, auch über mich selbst.

Zeit in Würzburg

Ich war mittels eines Alexander von Humboldt Stipendiums für Angewandte Mechanik an der Universität Würzburg. Mein Betreuer war Professor Josef Stoer.

Mein unvergessliches Erlebnis während meines Aufenthaltes... als ich nach Würzburg gekommen bin, hat mich auf dem Weg hierher als erstes einmal die Grenzmauer zum Lachen gebracht. Alle Schrauben, die die Betonplatten hielten, hatten die Mutter von der westlichen Seite zugänglich. Dies widersprach der DDR-Propaganda, dass die Mauer zum Schutz gegen westliche Spione errichtet worden war.

Würzburg ist... TOLL!!!

Time in Wuerzburg
I have been at the University of Wuerzburg because of the DAAD program (research Grants). My advising professor was Professor Dr. Norbert Schulz. I am grateful that DAAD gave me such a unique opportunity to visit Germany. Owing to that experience, I extended my knowledge and enriched my worldview that significantly influenced my future career goals.

Würzburg is... one of the most beautiful city in Germany. The city absorbed the different epochs, which left a mark on the architecture of the city. There are lots of beautiful flowering trees, especially magnolias in the center. I warmly remember all whom I met there because they are part of this nice memory.

I often reminisce about the time I spent in Würzburg, one of the most beautiful cities in Germany. Würzburg embodies the uniqueness of different epochs, the uniqueness that can be traced in the magnificent architecture, art, and culture of the city. The city’s breathtaking natural beauty shines through its gorgeous gardens, Magnolia trees, and flowers. I warmly remember all the people I met there as they all create a wonderful memory of the great time I had in Würzburg.

- **Hobbies**: Reading, working in farms
- **About me**: Simple, kind, hardworking, I like the nature and often see the science there, I have never been selfish.

**Time in Wuerzburg**

I have been at the University of Wuerzburg because of an Alexander von Humboldt Fellowship within a DAAD program. My advising professor was Professor Dr. Peter Udluft.

My most memorable experience during my stay .. when I met the family of Hermann Heinrich in Unterdürrbach. He is the man that all Wuerzburgers should know, knowing him will really extend your life and make you feel happy. He was never sad, never said impossible, I am proud he is my friend. He is creative, innovative and he likes the nature.

Wuerzburg is... the city where I feel happy, where I have friends who I will never forget.

**Interests**

Hobbies Playing accordion and fiddle, horse riding, hiking/hill walking, jogging, pilates, reading, interest in culture (e.g. theatre, concerts, cinema etc.)

**Time in Wuerzburg**

I have been at the University of Wuerzburg because of a DAAD Stipendium and because I was really interested in having the challenge of learning German and learning about the culture and history. My German friends awakened that interest in me and I wanted to experience and get to know more. My advising professor was Professor Forkel.

My most memorable experience during my stay... I was having the time to sit around the table in the Studentenwohnheim (having a cup of tea or a glass of wine) and having a good discussion about life and the way we humans tick ;-)

Wuerzburg is... a relatively small city and gave us students a wonderful backdrop to get to know each other through the wonderful parks, wine bars, the beautiful beer gardens, the Main River, little restaurants, markets (at christmas and the weekend market) and Marienberg, just to mention a few. It was also accessible from many parts of Germany and enabled us to travel far and wide, with a good connection from Frankfurt.

Zeit in Würzburg

Mein Aufenthalt in Würzburg (Juli und August im 2000) war ein Studienaufenthalt, um mein Projekt
"Ähnlichkeiten und Unterschiede des Parlamentarismus in Serbien und in Deutschland" zu Ende zu bringen. Auch war ich als Teilnehmer der "Gender Woche" im November 2010 an der Universität Würzburg.

Ich habe in Würzburg viele Freunde und Fachkollegen aus der ganzen Welt kennengelernt. Wir haben zahlreiche Restaurants besucht und gemeinsam an Projekten gearbeitet. Wir nutzen und pflegen diese Erfahrungen und Freundschaften auch heute noch.

Würzburg ist... eine sehr schöne Stadt. An diese Stadt binden mich sehr gute Erinnerungen. Ich werde immer gerne in diese Stadt zurückkehren.

**Academic and professional career**

- **Field of study**: Medicine, Ophthalmology
- **Current position**: Professor in Ophthalmology at the Surgical department of San Fernando Medical School, of the Universidad Nacional Mayor de San Marcos in Lima Peru; Chairman of the Ultrasound department of the Peruvian Nacional Eye institute (Instituto Nacional de Oftalmologia)
- **Home university**: Universidad Nacional mayor de San Marcos, Lima Peru
- **Languages**: Spanish, English, Portuguese, German

**Interests**

- **Hobbies**: Jogging, build scale models and travel around the world
- **About me**: I am a person that is constantly busy at the university and in the Eye clinic, but I love to arrive home back and leave outside all the problems that don’t belong to Home.

I am married with my lifelong partner, she accompanies in the difficult moments and she is close to me in my happiness. I have two children, a boy who was born in Germany during my scholarship and now he studies administration, and my daughter who was born just when we returned to our country. She studies publicity and marketing, both in Lima.

I consider myself fortunate in life.

**Time in Wuerzburg**

I have been at the University of Wuerzburg because I got a DAAD exchange program scholarship, then I made my doctor degree in Medicine, in the Ophthalmology Clinic. My advising professors were Prof. Dr. med Anselm Kampik, Prof. Dr. med Gerhard Hasenfratz and Prof. Dr. rer. Nat. Wolfgang Haigis.
My most memorable experience during my stay... I have many memorable experiences in Würzburg, all of them have to do with the extraordinary quality of people I got to know. One of those that I am glad to remember was just 2 days before we had to return to our country: I have approved my doctoral examination and the director of the clinic invited myself and my wife to his house to celebrate it.

I told my best friend Carlo Schönfeld, that regrettably I could not accept the invitation to the director’s house, because I had no babysitter to leave my 1 year-old son, we have not been able to get anybody in the last minute. He immediately told me if I was crazy, and he would stay to take care of my son. He insisted in that, and at the end of the night when we returned to our department we found him sleeping in our couch and my 1 year-old son has been taken care of by him. It was an act of friendship. We have valued it a lot and it remarks that in Würzburg, you can make unconditional friends forever.

Wuerzburg is... a mountain in the course of a river, this city changed my life in an incredible way. Until I got my scholarship from DAAD, the course of my life seemed to have a destination, but it was changed when I have met a new reality.

I have built my new road becoming trained and many things that I have received at that time I even maintain, Würzburg gave to me my subspecialty in ophthalmology and opened a different panorama about life. It granted me very sad moments as my father’s death during my scholarship as well as very happy news, like my first son’s birth.

It was also a wonderful experience as young ophthalmologist recently graduated of the university, it taught us, my wife and me, to enjoy life with simplicity and to thank little things that we had at homeland and we didn’t give value until then. We learned how to survive far from home and make new friends for the whole lifetime.
Prof. Humberto Guerra

Medicine

Date of Birth  03/09/1940
Address   Instituto de Medicina Tropical
Alexander von Humboldt
Universidad Peruana Cayetano Heredia
A.P. 4314, Lima 100, Perú
Telephone +51 144 05958

E-Mail    humberto.guerra@upch.pe
Home country         Peru

Academic and professional career

Field of study  Infectious and tropical medicine and pathogenic microorganisms. I am a Physician
and Microbiologist with special interest in infections by intracellular parasites; we
strive to develop innovative diagnostic and therapeutic methods, especially for the
health of rural communities. Rural Telemedicine efforts constitute a newer
challenge, met primarily through improvement of applicable health solutions but
also through novel information and communication technologies.

Area of research  Bacterial infectious diseases: respiratory, diarrheal, cutaneous, systemic and
zoonotic diseases; emphasis on agents: Mycobacterium tuberculosis, M. leprae,
M. ulcerans, Leptospira sp., Streptococcus pneumoniae, Staphylococcus aureus,
Brucella melitensis, Salmonella enterica ser. Typhi, other Salmonellae, Vibrio
cholerae, Bartonella bacilliformis. While at the University of Würzburg I did
research on the isolation and maintenance culture of tissue macrophages from
mouse liver and their infection with Listeria monocytogenes.

Current position  Emeritus Professor of Medicine at the Universidad Peruana Cayetano Heredia. I
develop my activities at the Instituto de Medicina Tropical Alexander von
Humboldt, a part of my University.

Home university  Universidad Peruana Cayetano Heredia – UPCH

Further education  I earned 3 degrees, M.D., Ph.D., Dr. Med., and have been a Professor of Medicine
until retirement at 70.

Languages  Spanish (mother tongue) and English; I have a rough command of French. I regret
having very little knowledge of German.

Interests

Hobbies    Carpentry, swimming in the ocean, photography, computerized photo editing
About me

There is little more to say; I am a family man, fortunate to have a large, nice, cohesive, academically-oriented family, consisting of a wonderful wife, Elena (since 1967) and 5 children, Cristina, Ph.D. in Biochemistry and Molecular Biology, Heidelberg; Pablo, Bachelor of Arts in Communication Sciences, Lima; Javier, Informatics expert, married to Carmen - they have a daughter, Ximena, and a son, Sergio; Mabel, M.Sc in Zoology, Santiago, Chile, and Ecology, Lyon, working toward her Ph.D. at Montpellier and married to David Genoux-Lubain - they have two sons, Milan and Tomás; and Daniel, Ph.D. in Biochemistry and Molecular Biology, Brussels.

Time in Wuerzburg

I have been at the University of Wuerzburg because of an Alexander von Humboldt Fellowship. My advising Professor was Prof. Dr. Heinz Seeliger (deceased) and Prof. Dr. Herbert Hof.

My most memorable experience during my stay... that is certainly the trip we made from Unterdurrbach to Aachen to attend a German Congress of Tropical Medicine. We prepared our old VW Kombi so that our children, from 12 to 5 years old, could all sleep in it, and drove the distance. We slept in tents, one for the children and one for Elena and myself, in a different place each night, and ventured into nearby Holland once. We met Dr. Axel Kroeger, from Heidelberg, who was the only speaker who presented work from Latin America, and we have been friends since then, collaborating in many ways; he actually sent about seven of his students our way for their Habitur work.

On the way back, we visited the Alexander von Humboldt Foundation headquarters, where I became closer friends with the Secretary General Prof.Dr. Heinrich Pfeiffer and Dr. Gisela Janetzke; we were hosted by Dr. Gert Schilling, of the University of Bonn, who had worked in Lima for his habitur, and his wife, and attended a reception at the Peruvian Embassy. As the final touches, we had a last day close to Bonn and enjoyed the Phantasialand amusement park, and spent an evening at Dr. Axel Kroeger’s home in Heidelberg. This was certainly a very profitable experience, which has had deep consequences for our whole family, academically and culturally.

Wuerzburg is... an extremely nice city, which provided me an opportunity to connect much more closely with my growing family in 6 months (December 1980 – June 1981) and to return to more basic research work than I did in Peru. We lived in a very pleasant small town, Unterdurrbach, and enjoyed evenings and weekends in simple walks and also visiting local attractions and nearby towns with friends from the University, notably Prof. Dr. Herbert Hof and his very nice family, his wife Dorothea and children Holger and Christina (Tini), Dr. Angelika Schrettenbrunner and Dr. Jörg Hacker, who was not a celebrated Prof.Dr. at the time.

Interests
Hobbies Language, travel
About me Medical degree: Ege University Medical School (Turkey)
Residency training: Child and Adolescent Psychiatry (Germany/Turkey) at the University of Würzburg / Düsseldorf / Erlangen, Child and Adolescent Psychiatric Hospital Marl, Europakanal Hospital /Erlangen and joint thesis at the Universities Universities of Würzburg & Uludag
International Master of Affective Neuroscience (Univ. Maastricht & Univ. Florence)
Phd in Basic and Clinical Pharmacology (Univ. Uludag, Bursa)
Certificate in Forensic Child and Adolescent Psychiatry (Univ. Tübingen)
**Time in Wuerzburg**

I’ve been at the University of Würzburg Department of Psychiatry because of a DAAD scholarship (1992-1993; Director Prof. H. Beckmann). Afterwards I continued as research assistant (1993-1995; Dept. Psychiatry/Neurochemistry, Director P. Riederer). During this time, I also volunteered as research assistant at the Department Child and Adolescent Psychiatry (1993-1995; Director Prof. A. Warnke), where I later also did part of my thesis research in co-operation with Uludag University Dept. of Psychiatry (1998-2000).

My most memorable experience during my stay: There are many good memories: positive atmosphere among colleagues and staff, support from academic teachers, high level scientific environment, inspiring interdisciplinary research teams in the lab, as well as peaceful relaxation in the historic city center and the World Heritage ‘Rezidens and Hofgarten’. I would also like to mention the support to all foreign researchers from Prof. T. Berchem (Wuerzburg Univ. President and DAAD President) as well as all my academic teachers: “Be assured to be welcome as foreign researchers at german research institutions.”.

After I left Würzburg University in 1995, for the past two decades I have kept contact with former colleagues and academic teachers. I always enjoy coming to Würzburg for symposia, alumni meetings or to visit friends. The Würzburg Alumni Office has been an efficient link to my former institution. Besides, I have initiated an ERASMUS partnership between my current institution Uludag University and Wurzburg University Medical Schools.

Wuerzburg has an impressive historic center, a university with scientific excellence in many fields and beautiful natural surroundings. For me, Wuerzburg is also the starting point of my career in psychiatry.

Academic and professional career

Field of study Clinical, epidemiological and basic neurosciences (MBChB, MMed Psych (SA), FC Psych (SA), PhD in Psychiatry)
Current position Executive Head of Department of Psychiatry
Home university University of Stellenbosch
Further education Currently completing an MPhil in Bilemdical
Languages English

Interests

I am a Distinguished Professor of Psychiatry and Executive Head of the Department of Psychiatry at the University of Stellenbosch. I hold the South African Research Chair in Posttraumatic Stress Disorder funded by the Department of Science and Technology and the National Research Foundation. I am also Co-Director of the Medical Research Council Unit on Anxiety and Stress Disorders.

I have 18 years of clinical, epidemiological and basic neuroscience research experience as a psychiatrist working in the field of trauma and anxiety, and has existing collaborative research projects with colleagues in Europe, the United States and in several African countries. I have been involved in NeuroAIDS research for 14 years. I direct a number of research programs in the Department of Psychiatry and mentors several masters, doctoral and postdoctoral students. I have several ongoing projects on gender-based violence and posttraumatic stress disorder (in the context of adolescent populations, HIV infected samples, early life adversity), and fetal alcohol spectrum disorders. I have experience in research ethics as a previous member of the Faculty of Medicine’s Health Research Ethics committee between 2005 and 2012 and as chair of that committee between 2009 and 2011. I serve as the editor-in-chief of the Journal of Child and Adolescent Mental Health and as an associate editor of the journals PLoS One, Global Mental Health and the South African Journal of Psychiatry. I have published over 300 peer-reviewed journal manuscripts and book chapters and have co-edited four books.
Time in Wuerzburg

I have had 2 brief visits to Wuerzburg (in 2015 and 2016) and on both occasions have been struck by the warmth, hospitality and willingness of academics to engage and collaborate. My collaborators Professors Jürgen Deckert and Katharina Domschke have been extremely generous with their time and I am confident that we will have very fruitful collaborations going forward.

About me A Psychiatrist working with Bugando Medical Centre as a Clinician and head of department since September 2010, also working with Catholic University of Health and Allied Sciences as a lecturer.

Time in Wuerzburg
I've been at the University of Wuerzburg because of official visit and collaboration with the University-Psychiatry.

My most memorable experience during my stay: visiting the Psychology school museum.

Wuerzburg is marvellous.
Alma Dzubur Kulenovic MD PhD
Psychiatry

Date of birth: 28/10/1958
Address: Cobanija 17, 71 000 Sarajevo
Telephone: +387 61 223 708
E-Mail: almadzuburkulenovic@yahoo.com
Home country: Bosnia and Herzegovina

Academic and professional career
Field of study: Psychiatry
Current position: Head of Psychiatry and Medical Psychology, Medical Faculty, University of Sarajevo
Home university: University of Sarajevo

Interests
Hobbies: Reading, Art, Travelling
About me: I really enjoy my profession.

Time in Wuerzburg
I've been at the University of Wuerzburg because of the collaboration with Professors Jürgen Deckert and Katharina Domschke on the International DAAD sponsored project on the Molecular mechanisms of Posttraumatic Stress Disorder.

My most memorable experience during my stay was the warmth of Frankonian hospitality and the research excellence at the Department of Psychiatry.

Wuerzburg is gemütlich.
Prof. Anna Marmodoro
Philosophy & Classics

Date of Birth 26/06/1975
Address Corpus Christi College
Merton Street
OX1 4JF Oxford, United Kingdom
E-Mail anna.marmodoro@ccc.ox.ac.uk
Home country United Kingdom

Academic and professional career
Field of study Philosophy and Classics
Area of research Ancient and contemporary metaphysics, within a broadly Aristotelian framework. Issues concerning the nature of properties, dispositions, relations, composition and structure, substances, and causation; Classical and medieval philosophy, contemporary metaphysics, the philosophy of mind, and the philosophy of religion. Her monograph on Aristotle on Perceiving Objects, OUP, was published in July 2014.

Current position Official Fellow in Philosophy at the University Oxford and Corpus Christi College (since 2011)
Currently working on a new monograph, titled Everything is Everything. An essay on Anaxagoras, which is under contract also with OUP.
Directing a large-scale multidisciplinary research group supported by the European Research Council and the Templeton World Charity Foundation. Her group investigates the nature of the fundamental building blocks of reality, with special interest in power ontology (including how this metaphysics view was developed in ancient Greek thought).

Home university University of Oxford
Further education Earned Ph.D. in Philosophy from the University of Edinburgh and a Laurea in Philosophy from the University of Pisa, Italy.
Visiting fellowships in Germany, Italy, the US, and Australia
Departmental Lecturer in the Faculty of Philosophy, at Oxford, and in Corpus Christi College (2007-2008)
British Academy Post-doctoral Fellow in the Faculty of Philosophy, at Oxford, and Junior Research Fellow in Corpus Christi College (2008-2011)

Languages Italian (mother tongue), English, ancient Greek and Latin

Interests
Hobbies Tennis, squash, reading
Time in Wuerzburg

I have been at the University of Wuerzburg because of Deutscher Akademischer Austausch Dienst (German Academic Exchange service). My advising professor was Professor Michael Erler.
Prof. Matjaz Potrc
Philosophy

Date of Birth  13/09/1948
Address   Philosophy Department, Askerceva 2,
1000 Ljubljana, Slovenia
Telephone  +386 012411104
E-Mail   matjaz.potrc@guest.arnes.si
Home country  Slovenia

Academic and professional career
Field of study   Philosophy
Area of research Philosophy: Brentanian heritage, phenomenology, moral philosophy, moral particularism, austere realism in metaphysics, philosophy of mind, cognition, psychology.
Current position Full Professor for analytic philosophy at the University of Ljubljana in the philosophy department, Slovenia.
Home university  University of Ljubljana Slovenia
Further education Started teaching philosophy at the Philosophy department Zadar, University of Split, Croatia. Then I was teaching philosophy at the University of Ljubljana, Slovenia. I had a french government grant at Paris with Julia Kristeva, J.-A. Miller, Jacques Lacan, an Alexander von Humboldt Stiftung grant at the University of Munich, Germany, with Prof. Wolfgang Stegmueller. Collaboration with University of Graz, Rudolf Haller. Visits to Bielefeld (Peter Bieri), Bayreuth (Wilhelm Vossenkuhl). Second renaissance Milano. Course director at IUC Dubrovnik. Established Bled Slovenia international philosophy conferences (with John Biro from Florida), now in 20th year. Founder of the journal Acta Analytica, now Springer Verlag. Fullbright fellowship at University of Memphis, TN, with Terry Horgan. Collaboration with Terry Horgan (Austere Realism MIT book), with Vojko Strahovnik (Practical Contexts Ontos Verlag book). Teaching metaphysics, philosophy of mind, epistemology, moral philosophy. Author of numerous articles and books
Presented papers about their work with their live feedback among others to Brandom Robert, Dancy Jonathan, Davidson Donald, Habermas Juergen, Haller Rudolf, Lehrer Keith, Quine W.V.O. , Putnam Hilary, Rorty Richard, Searle John.
Languages   Slovene, English, German, French, Italian

Interests
Hobbies   Hiking, taking part in symposia, collaborative efforts
About me   I like writing, teaching and collaborating in the area of phiosophy. My parents were both writers. I have a daughter and a son.
Time in Wuerzburg

I have been at the University of Wuerzburg because of an Alexander von Humboldt fellowship and an extension stay. We had a visit of the Brentano Research part of the Philosophy Institute at the University of Wuerzburg, where we studied Brentanian, including Austrian and Slovenian, traditions.

Elaboration of the Phenomenology and Cognitive Science TEMPUS project, publishing of the book with that title. Roell Verlag collaboration. My advising professor was Prof. Dr. Wilhelm Baumgartner.

My most memorable experience during my stay... as I was studying Brentanian stuff in the Brentano Research institute at the Residenz, above the wine-cellar, and I had the window opened, the visitors of the Residenz were asking me about directions.

Memorable were several visits to Baumgartners in the old castle outside Wuerzburg. I enjoyed the Alumni gathering that allowed me to visit the wine cellar after all these years, for before that I was just sitting in the institute and sometimes I could smell the wine, without knowing what it is like there deep down below.

Wuerzburg is... a town that I always like to visit, with its nice environment and people. Hope to be there for the next session of Franz Brentano Society of which I am a member.

Mitherausgeber von „Epistemologia. An Italian Journal for the Philosophy of Science“
Sprachkenntnisse Italienisch, Deutsch, Englisch, Französisch

Persönliches

Hobbies Theater
**Zeit in Würzburg**

Mein unvergessliches Erlebnis während meines Aufenthaltes .. der erste kurze Aufenthalt als Student in Würzburg, wo ich alles wiederfand, was mein Vater mir erzählt hatte. Er war in Peines Gefängnislager als Kriegsgefangener gewesen und wog, als er aus diesem Lager am Ende des Krieges heimkam, ungefähr 40 Kilo.

Und doch hatte er mir immer wieder die gemeinschaftliche Zusammengehörigkeit und die Leistungsanerkennung als deutsche Tugend, die ihm in Italien am meisten fehlte, gelobt.

Würzburg ist... ein Ort, wo ich mich gemütlicher und geborgener fühle als in meiner Heimat; ein Ort, wohin ich mit Sehnsucht nach meinem wahren Sinn und meinem wahren Geschick immer wieder zurückkomme.
Dr. David Atlan
