

face2face

What is **face2face** ?

Two people of different mother-tongues work together to improve their foreign language skills.

You will also have the chance to exchange cultural experiences.

It is a self-learning program in which both partners take responsibility for the learning process. The participants can choose topics to talk about, their aims and when to meet each other themselves.

How do I find a language (exchange) pal?

If you are looking for a language pal, sign up for face2face on our homepage [www.zfs.uni-wuerzburg.de/mediothek/face2face/] or come to the Mediothek in the Language Centre during opening hours.

What happens next?

Our staff members try to find a matching language pal as soon as possible. Once they have found one, you will be contacted and a first meeting will be arranged at the Language Centre. There you will receive more information about face2face.
