

Test for setting equilibrium states (Fir Tree Test)

Inv.-No.	01040
Developer	Probably Adolf Moritz Friedrich (1892-1963)
Manufacturer	Arthur Schubert, Düsseldorf
Date	about 1920
Material	Wood, cast iron, brass nickel plated
Dimensions (h ,w, d; in mm)	770 x 460 x 380

This test was developed for the selection and training of crane operators. The task is to balance the weights on the jibs as quickly as possible so that both tips are perpendicular.
