

Julius-Maximilians-

**UNIVERSITÄT
WÜRZBURG**

International MSc program **FOKUS Life Sciences**

Be part of a world class university

In the life sciences, the University of Würzburg ranks among the top four in Germany (DFG 2012) and among the top 100 worldwide (ARWU 2012).

Get ready for doctoral research

The MSc program FOKUS Life Sciences is linked to the Graduate School of Life Sciences (GSLs), with >300 doctoral researchers from 40 countries.

Fast track to your PhD

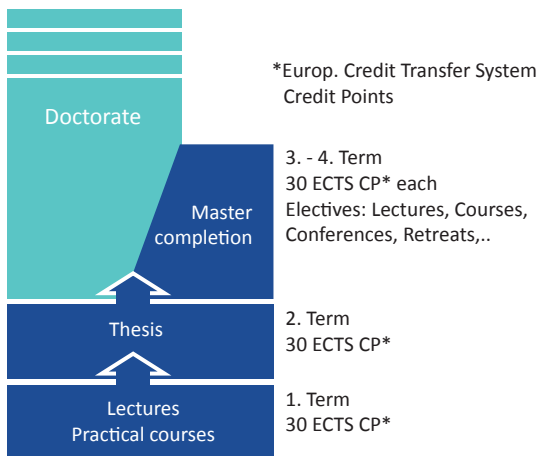

Complete your MSc thesis in the first year of the program. Then proceed directly to the doctoral phase in the GSLs, receiving a salary or fellowship.

www.msc-lifesciences.uni-wuerzburg.de

What you can expect

- > Study program in English
- > Access to 170 research groups in biomedicine, infection biology, immunology, neurobiology, integrative biology, and clinical sciences
- > Fast-track from BSc to PhD
- > Strong research orientation throughout, including lab courses, conferences, retreats
- > Comprehensive transferable skills program

Application and Admission

Applicants should have completed or be close to completion of their BSc in a relevant field: biology or other natural sciences with a view to the life sciences. Very good English language skills are required. Online application is open until **March 15, each year**, for start in October of the same year at: www.msc-lifesciences.uni-wuerzburg.de
