

HOW TO Split screen

Website DigiLLabs

1. Tap “Screen Sharing” on the display. The Smart Mirror app interface will now appear
2. Open the Smart Mirror app (available for Windows, macOS, iOS and Android) and enter the number displayed on the Smart Board
3. Then click on “Share Screen”
4. To end the sharing session, tap “Stop” on the screen or close the app on your device

No one's presenting right now

Hold tight, or be the first to present...
